

General Data	
Max. distance sockets	30 m
Max. # of simultaneous users	1
Estimated cleaning surface	450 m ²
Estimated # of sockets	12

Vacuum unit specifications	
Primary filter	Cyclonic filtration
Secondary filter	Textile filter
Capacity	42 L
Unit dimensions (W x H x D)	0,53 x 1,17 x 0,43
Required mounting space	0,80 x 1,45 x 0,70

Motor specifications	
Motor type	Brushless Motor
General	220 - 250 VAC, 50 Hz Insulation class E
Nom. power	1400 W
Max. power	1450 W
Max. current	7,2 A
Max. revolutions	27000
Fuse rating	8 A
Motorframe	183 mm
Motor control	12 VDC signal with safety transformer (VDEO551 - relay 16A)

Turbine specifications	
Motor Type	By-Pass Exterior 50mm outlet
Number of stages	2
Max. Negative Pressure	3066 mm H ₂ O
Max. Airflow	52,1 L/sec
Max. AirWatts	464 W

Availability	
1.0030.3500	Central vacuum unit ET3500 - Epoxy painted

Certification	
CE	Conform
